EST. 2306 – WOODWARD FOODS AUSTRALIA QUALITY ASSURANCE FORM	
Document Title	Approved Supplier Questionnaire
Document ID	QAF 0210a – 6.8.1

Dear Supplier,

In line with the ongoing development of our quality management system, Woodward Foods Australia maintains an Approved Supplier list to ensure the use of only high-quality goods and services in the operation of its business.

As a current or intending supplier of goods, services, or raw materials to Woodward Foods Australia, we are requesting that you respond to this questionnaire based on the risk assessment below.

High Risk – Product contact or ingredient, for example, primary packaging.
Medium Risk – High possibility for contact with product, for example, secondary packaging or PPE clothing.
Low Risk – Services and materials not destined for direct contact with the product, for Example - stationery, waste services.

Based on this assessment: -
High Risk - Please complete Sections 1, 2, and 3
Medium Risk - Please complete Sections 1 and 2
Low Risk - Please complete Section 1

Thank you.

Sincerely,

Quality Assurance Department

Woodward Foods Australia
334C River Road, Swan Hill, Victoria, 3585, Australia
PO Box 352, Swan Hill, Victoria, 3585, Australia
T: +61 (0)3 5032 4000 **F:** +61 (0)3 5033 1557

Please return the completed form to the:
Quality Assurance Manager, 334C River Road, Swan Hill, Vic 3585 Australia
or Email to: nina.drua@woodwardfoods.com.au

Office use only

Date Assessed: _____ **Recommendation:** _____ **QAM:** _____

Comments:

This checklist is intended to serve as a guide to evaluate the compliance status of social responsibility and Supplier Guiding Principles for suppliers, service providers, contractors, and subcontractors.

Service/Supplier Provider: Greatorex Textile Industries P/L

Date of Assessment: 16.6.2025

Assessor Name: Edwina Greatorex

Sr.	Requirement	Y or N
1	**Prohibit Child Labor** Adhere to minimum age provisions of applicable laws and regulations.	Y
2	**Prohibit Forced Labor and Abuse of Labor** Prohibit physical abuse of employees and prohibit the use of all forms of forced labor, including prison labor, indentured Labouré, bonded labor, military labor, slave labor or any form of human trafficking.	Y
3	**Eliminate Discrimination** Maintain workplaces that are free from discrimination or physical or verbal harassment. The basis for recruitment, hiring, placement, training, compensation, and advancement should be qualifications, performance, skills and experience.	Y
4	**Work Hours and Wages** Compensate employees relative to the industry and local labor market. Operate in full compliance with applicable wage, work hours, overtime, and benefits laws, and offer employees opportunities to develop their skills and capabilities and provide advancement opportunities where possible.	Y
5	**Provide a Safe and Healthy Workplace** Provide a secure, safe, and healthy workplace. Maintain a productive workplace by minimizing the risk of accidents, injury, and exposure to health risks.	Y
6	**Protect the Environment** Conduct business in ways which protect and preserve the environment. Meet applicable environmental laws, rules, and regulations.	Y

7	**Freedom of Association and Collective Bargaining** Respect employees' right to join, form, or not to join a labor union without fear of reprisal, intimidation, or harassment. Where employees are represented by a legally recognized union, establish a constructive dialogue with their freely chosen representatives and bargain in good faith with such representative.	Y
8	**Business Integrity** Conduct business with integrity, respecting relevant laws and avoiding bribes and fraudulent practices.	Y
9.	**Grievance Procedure and Remedy** Provide workers with a mechanism to express grievances without fear of reprisal and ensure concerns are appropriately addressed in a timely manner.	Y
10.	**Management Systems** Have appropriate and effective systems in place to control actions ensuring lawful compliance and respect for all human rights.	Y

I declare that the above information given to Woodward Foods Australia is true and correct. The Merchandise Manufacturer has the responsibility to ensure full compliance to Woodward Foods Australia's Social Responsibility and Supplier Guiding Principles. Woodward Foods Australia reserves the right to conduct inspections of any Merchandise Manufacturer's facilities in order to verify compliance to the above requirements.

EGreatorex

SECTION 2: REQUIRED ATTACHMENTS

Instructions
In order to confirm your Quality Management System, please attach a copy of the following documents as applicable to this response. Ensure that all attached documents are current and clearly named. Part A is for product suppliers, Part B is for service suppliers.

Part A – Product Suppliers

- Copy of latest **GFSI** certificate*
- **Social Accountability** declaration (Page 2&3)
- Copy of Food Safety & Quality **Culture** Declaration

**If the site/business is not GFSI accredited:*
HACCP Certificate
Social accountability declaration
*Copy of Quality Management System certificate (ISO 9001 etc.) ***
Copy of Food Safety & Quality Culture Declaration

***If the site/business does not hold a recognized QMS certificate*
HACCP certificate
Social accountability declaration
Please complete all of Section 3

Part B – Service Providers

- Copy of current **Service Agreement**
- **Social Accountability** declaration (Page 2&3)
- Copy of **Business Insurance**
  (For services requiring contractors to perform onsite activities)

SECTION 3: SUPPLIER SELF ASSESSMENT

INTRODUCTION

The survey is developed to evaluate the supplier's Food Safety and Quality Management System. The objective is to determine how our supplier apply good Food Safety and Quality Management System principles to manufacture the supplied products.

Please attach a copy of the latest GFSI audit certificate as per Section 2

OR

If no GFSI system is in place, please complete the following questionnaire

The questionnaire covers sixteen areas as below,

A. Administration, Management Commitment & Regulatory Compliance
B. Product Safety, Control & HACCP
C. Manufacturing Site and Building Structure
D. Personal Hygiene
E. Supplier Quality Assurance – Incoming Material Handling
F. Product Storage
G. Cleaning and Sanitation Program
H. Pest Control Management
I. Foreign Matter Control
J. Calibration and Preventive Maintenance System
K. Process Control – Traceability, Quality and End Products
L. Release of Finished Product
M. Distribution
N. Food Safety Complaint Handling and Recall
O. Laboratories – Microbiological, Analytical and Physical
P. Internal Audit
Q. VACCP & TACCP

SECTION A: ADMINISTRATION, MANAGEMENT COMMITMENT & REGULATORY COMPLIANCE

1. Is there an up-to-date and clear organizational chart outlining the organizational structure?

☑ Yes ☐ No

2. Is there an up-to-date food safety and/or quality assurance program in place?

☑ Yes ☐ No

3. Do you have a written food safety policy?

☑ Yes ☐ No

4. Does your facility possess license or/and any 3rd party certificates to show that you comply with the local and international regulations or/and standards?

☐ Yes ☐ No

If Yes, please list down and submit copies of these license or/and certificates as evidence.

Click here to enter text.

N/A

5. Does your company implement Food Safety & Quality Culture plan/ program in your system?

☑ Yes ☐ No

6. Are your employees inducted for food safety and quality topics?

☑ Yes ☐ No

7. What kind of food safety training is available for employees? Please specify.

Click here to enter text.

Click here to enter text.

8. Is Food Safety & Quality Culture information visible within the facility (via signages, posters, close-circuit television, communication boards etc.)?

☑ Yes ☐ No

9. Do your employees have a mechanism to provide feedback for reducing food safety risk or improving Food Safety & Quality Culture program in your system?

☑ Yes ☐ No

10. Does your company recognize employee for good food safety practices in their daily job?

☑ Yes ☐ No

11. Does your company implement Food Defense/ Security program to ensure that the safety of products is not jeopardized through malicious actions, tampering or unauthorized gaining access to the site?

☑ Yes ☐ No

If Yes, please describe briefly.

Click here to enter text.

i) Is there entrance control for employees, vehicles, and visitor in the facility?

☑ Yes ☐ No

ii) Is there any security guards or CCTV in the facility?

☑ Yes ☐ No

iii) Is there any raw material receiving control/ inspection plan?

☑ Yes ☐ No

SECTION B: PRODUCT SAFETY, CONTROL AND HACCP

1. What are the types/ variety of products that are produced in your facility?

☐ Tools ☐ PPE ☐ Ice ☐ Plastic Packaging
☐ Beef ☐ Dry Ingredients ☐ Beverages ☐ Paper Packaging
☐ Fish ☐ Eggs/ Egg Products ☐ Bakery & Confectionery ☐ Carton Packaging
☐ Others *(please specify)*: Click here to enter text. Elasticated Netting

2. Is there a well-defined and properly trained HACCP team?

☑ Yes ☐ No

If Yes, please specify team members are from which departments:

Click here to enter text.

3. Who is the Food Safety Team Leader in your facility?

Name : Click here to enter text. Edwina Greatorex
Position : Click here to enter text. Administration

4. Is there a proper HACCP plan in place for the products?

☑ Yes ☐ No

6. What information are included in the description of food product in your HACCP plan?

Please tick below: *can tick more than 1 answer*

☑ Product name ☑ Labelling information
☑ Product description and characteristics ☑ Storage and distribution conditions
☑ Type of Packaging used ☑ Intended use
☑ List of ingredients and their origin ☑ Target shelf life
☐ Others *(please specify):* Click here to enter text.

7. Does the HACCP plan include a process flow chart outlining each process step, starting from the raw materials receiving?

☑ Yes ☐ No

8. Does the HACCP plan include hazard analysis of the product including chemical, physical or biological hazards?

☑ Yes ☐ No

9. What aspects does your Hazard Analysis cover?

☐ Raw Materials
☐ In-Process
☑ Both
☐ None

10. Are proper critical control points (CCP) clearly identified to eliminate or minimize all identified hazards?

☑ Yes ☐ No

If Yes, please list down CCPs and respective critical limits. Describe how CCPs are monitored (including inspection frequency, who performs inspection, where it is performed).

Click here to enter text

None Present

SECTION C: MANUFACTURING SITE AND BUILDING STRUCTURE

1. Are building exterior and ground properly maintained?

☑ Yes ☐ No

2. Does your product flow reduce or eliminate the risk of potential cross contamination?

☑ Yes ☐ No

If Yes, please describe specially how it helps.

All product flows in a single direction, product never returns to an earlier stage

3. Are building interior properly maintained? Please tick if below is in order: *can tick more than 1 answer*

☑ Clean and undamaged walls
☑ Clean and undamaged floor
☑ Windows have screens if they are opened
☑ Clean and undamaged windows
☑ Undamaged doors with no gaps below
☐ Others *(please specify)*: Click here to enter text.

4. What are present at the hand-washing stations in the toilets for production staffs?
Please tick below: *can tick more than 1 answer*

☑ Water taps with hands-free operation, e.g. by foot, elbow, knee or electric sensor
☑ Soap contained within a dispenser
☑ Dustbin provided
☑ Hand-washing instructions
☑ Hand towel/ dryer provided
☑ Sanitizer
☐ Others *(please specify):* Click here to enter text.

5. What are present at the hand-washing points provided for staffs to wash hands before, during and after work?

☑ Water taps with hands-free operation, e.g., by foot, elbow, knee, or electric sensor
☑ Soap contained within a dispenser
☑ Dustbin provided
☑ Hand washing instructions
☑ Hand towel/ dryer provided
☑ Sanitizer
☐ Others *(please specify):* Click here to enter text.

SECTION D: PERSONAL HYGIENE

1. Which of the following is stated in a company policy or procedure and to what extent?

i) Protective clothing (include hair covering)

☐ No procedure / policy in place ☑ Procedure in place and implemented perfectly

☐ Implemented but not documented ☐ *Others:* Click here to enter text.

ii) Jewelry and personal items

☐ No procedure / policy in place ☑ Procedure in place and implemented perfectly

☐ Implemented but not documented ☐ *Others:* Click here to enter text.

iii) Illness, infection, cuts and abrasions

☐ No procedure / policy in place ☑ Procedure in place and implemented perfectly

☐ Implemented but not documented ☐ *Others:* Click here to enter text.

iv) Smoking

☐ No procedure / policy in place ☑ Procedure in place and implemented perfectly

☐ Implemented but not documented ☐ *Others:* Click here to enter text.

v) Eating and drinking

☐ No procedure / policy in place ☑ Procedure in place and implemented perfectly

☐ Implemented but not documented ☐ *Others:* Click here to enter text.

vi) Handwashing

☐ No procedure / policy in place ☑ Procedure in place and implemented perfectly

☐ Implemented but not documented ☐ *Others:* Click here to enter text.

2. Are employees provided with special clothing for production?

☑ Yes ☐ No

If Yes, please describe the cleaning procedure of the special clothing.

Click here to enter text.

Click here to enter text.

SECTION E: SUPPLIER QUALITY ASSURANCE – INCOMING MATERIAL HANDLING

1. Is there a program to monitor the approval of suppliers?

☐ No procedure / policy in place ☑ Procedure in place and implemented perfectly

☐ Implemented but not documented ☐ *Others:* Click here to enter text.

2. Based on which criteria do you select your suppliers, raw and packaging materials?

☑ Relation with supplier ☑ Reliability

☑ Service ☑ Product quality

☐ Price ☐ Development of specific raw materials

☐ Food safety system ☐ Delivery time

☐ Others *(please specify):* Click here to enter text.

3. Are there up to date written and signed specifications for all raw/ packaging materials?

☑ Yes ☐ No

4. Do your suppliers provide evidence of conformance to agree upon Specification for shipment of raw / packaging materials? E.g.: Certificate of Analysis

☑ Yes, for all shipments

☐ Yes, for some but not all suppliers

Please indicate which supplier(s) don't provide COA: Click here to enter text.

☐ No. None of the suppliers is providing any evidence of conformance.

5. Is there a written procedure or work instruction (WI) for monitoring incoming raw / packaging material?

☐ No procedure / policy in place ☑ Procedure in place and implemented perfectly
☐ Implemented but not documented ☐ *Others:* Click here to enter text.

6. Do you perform incoming inspection for materials or products shipped to you?

☑ Yes, for all shipments
☐ Yes, for some but not all materials or products
☐ Yes, only for materials or products that come in without Certificate of Analysis
☐ No

If you are not inspecting materials or products of all shipments, please list down products that you are performing incoming inspection.
Click here to enter text.

7. What are the inspection carried out during incoming material receiving?

☐ Truck/transport temperature
☑ Truck/transport cleanliness
☑ Seal/ tamper-evident tape availability
☑ Material food safety & quality parameters

8. How do you monitor the food safety and GMP practices of your suppliers?

☑ Conduct audit; Frequency: Click here to enter text. Annual
☑ Through supplier questionnaire; Frequency: Click here to enter text.
☐ Others *(please specify):* Click here to enter text.
☐ None

SECTION F: PRODUCT STORAGE

1. Do you use third party warehousing?

☐ Yes ☐ No

If Yes, is it audited regularly?

☐ Yes, How often? Click here to enter text.
☐ No

2. Do you have a designated warehouse or storage facility on site?

☑ Yes ☐ No

3. Is adequate shelter provided for the storage facility?

☑ Yes ☐ No ☐ N/A

4. Describe the storage condition.

Click here to enter text. Undercover, Clean, avail;able storage on site

5. Is storage temperature controlled?

☐ Yes ☐ No ☑ N/A

6. Describe the temperature control system.

☐ Automated ☐ Semi automated ☐ Manual ☑ N/A

7. Is the storage temperature record maintained?

☐ Yes ☐ No ☑ N/A

8. Are all materials including packaging stored off floor and away from walls?

☑ Yes ☐ No

9. Are raw materials, packaging and finished goods segregated properly?

☑ Yes ☐ No

10. Is allergen management program in place?

☐ No procedure / policy in place ☑ Procedure in place and implemented perfectly
☐ Implemented but not documented ☐ *Others:* Click here to enter text.

If your answer is 'Implemented but not documented' or 'Procedure in place and implemented perfectly', please proceed with following questions:

i) What type of allergens are there in your facility?

Click here to enter text. No allergens present

ii) Please describe the allergen management program or how the allergenic item being managed?

Click here to enter text.
Click here to enter text.

12. Is stock rotation procedure/ policy in place?

☐ No procedure / policy in place ☑ Procedure in place and implemented perfectly
☐ Implemented but not documented ☐ *Others:* Click here to enter text.

If your answer is 'Implemented but not documented' or 'Procedure in place and implemented perfectly', please describe your stock rotation policy.

Click here to enter text.

SECTION G: CLEANING AND SANITATION PROGRAM

1. Is there a cleaning and sanitation program in place?

☐ No procedure / policy in place ☑ Procedure in place and implemented perfectly
☐ Implemented but not documented ☐ *Others:* Click here to enter text.

2. Who carries out cleaning on site?

Production : Click here to enter text.. External contractors for whole site
Warehouse : Click here to enter text. Toilets
: Click here to enter text.
Other areas : Click here to enter text.

3. What training is provided for the person cleaning on site?

Click here to enter text. Type text here

4. Are cleaning schedules and procedure in place?

☑ Yes ☐ No

5. How often is cleaning carried out and please specify which areas?

☐ Daily, Areas : Click here to enter text. workstations and machinery

☐ Weekly, Areas : Click here to enter text.

☐ Monthly, Areas : Click here to enter text.

6. Are all cleaning chemicals suitable for the intended purpose and food grade?

☑ Yes ☐ No

7. Are there any certificates or/and letter of guarantee from supplier to prove that the cleaning chemicals are suitable and food grade?

☑ Yes ☑ No

8. Describe system used to control access and use of chemicals.

Click here to enter text.

Click here to enter text.

9. Are cleaning standards verified by using microbiological surveillance check?

☑ Yes ☐ No

If Yes, please describe test method (swab test) Click here to enter text.

SECTION H: PEST CONTROL MANAGEMENT

1. Is there a pest control program in place?

☐ No procedure / policy in place ☒ Procedure in place and implemented perfectly

☐ Implemented but not documented ☐ *Others:* Click here to enter text.

2. Is Pest Sighting Log implemented?

☑ Yes ☐ No

3. Is the pest management services contracted out to external party?

☑ Yes ☐ No

i) What type of pest are covered under the scope of contract?

☑ Ants ☑ Cockroach ☑ Fly ☑ Rats ☑ Termite

☐ Others: Click here to enter text.

ii) What is the frequency of visit (by treatment type)?

☑ Fortnightly, Treatment Type: Click here to enter text. bait stations

☐ Monthly, Treatment Type: All treatments

☐ Quarterly, Treatment Type: Click here to enter text.

☐ Others, Treatment Type: Click here to enter text.

iii) Are all PCO licenses provided by pest contractor?

☑ Yes ☐ No

4. Please detail **internal** pest management program

Daily observations and checks of indicator stations, escalation to 3rd party if needed

5. Please detail the training (pest control awareness etc.) that are attended by the responsible employees.

All QAO's are trained against relevant Pest Control SOP's

6. Are Safety Data Sheet (SDS) available for all the pesticides used?

☑ Yes ☐ No

7. Please provide a summary of pest activity within last 12 months (e.g. high flies infestation).

Low rodent activity, medium flying insect across warmer months

8. Is there an up-to-date plan of the factory to identify pest control devices and their locations which are dated and signed off by pest controller?

☑ Yes ☐ No

9. Are all pest control reports documented and retained for future reference?

☑ Yes ☐ No

10. Are bait stations (with toxic rodent baits) used to monitor the rodent activity?

☑ Yes ☐ No

11. Please specific location that have bait station (with toxic rodent baits) installed: -

☑ External ☐ Within production area ☑ Storage area including cold room

☐ Others: Click here to enter text.

SECTION I: FOREIGN MATTER CONTROL

1. Is there a foreign matter control procedure/ policy in place?

☐ No procedure / policy in place ☑ Procedure in place and implemented perfectly

☐ Implemented but not documented ☐ *Others:* Click here to enter text.

2. Do you use any of the following material in your production area?

Glass - ☑ Yes ☐ No

Wood - ☑ Yes ☐ No

3. Describe control measures taken to minimize contamination by glass and wood.

Click here to enter text. Registry

4. Describe control measures taken to minimize contamination by metals.

☐ Metal Detector ☐ *Others*: Click here to enter text.. N/A

If you have 'Metal Detector', please describe:

i) Size of test piece used:

Ferrous	:	Click here to enter text.
Non-Ferrous	:	Click here to enter text..
Stainless Steel	:	Click here to enter text.
Others	:	Click here to enter text.

ii) Frequency of verification:

☐ Daily ☐ Twice Daily ☐ After product-changeover ☐ *Others*: Per run

iii) Is metal detector calibrated?

☐ Yes, frequency: Annually ☐ No

5. Are your products sieved? If Yes, please detail sieve size used.

☐ Yes, sieve size: Click here to enter text. ☐ No ☑ Not Applicable

6. What object/ material that normally found from the sieve?

Click here to enter text.

7. Are lubricant used on processing equipment?

☑ Yes ☐ No

8. Are the lubricants food grade?

☑ Yes ☐ No ☐ N/A

9. Are there any certificates or/and documents to prove that the lubricants are food grade?

☑ Yes ☐ No ☐ N/A

10. Is loose item control procedure in place?

☑ Yes ☐ No

If Yes, please describe the procedure.

Click here to enter text..

Click here to enter text.

SECTION J: CALIBRATION AND PREVENTIVE MAINTENANCE SYSTEM

This includes measurement of process or product properties as it may occur anywhere in your plant including laboratory.

1. Is there a written procedure or program for all calibration and verification process?

☐ No procedure / policy in place ☒ Procedure in place and implemented perfectly

☐ Implemented but not documented ☐ *Others:* Click here to enter text.

2. Please describe briefly on the verification and calibration process to ensure the operation of the instruments and measuring equipment are within prescribed precision.

Click here to enter text.

Click here to enter text.

Click here to enter text.

3. What is the frequency for the calibration of equipment and what are the equipment involved?

Can tick more than 1 answer

☐ Yearly, Equipment : Click here to enter text.
☐ Monthly, Equipment : Click here to enter text.
☐ Weekly, Equipment : Click here to enter text.
☐ Others (Please specify) : Click here to enter text.

4. Is the calibration method traceable to recognized standard?

☑ Yes ☐ No

5. What is the frequency for the internal verification of equipment and what are the equipment involved?
Can tick more than 1 answer

☐ Yearly, Equipment : Click here to enter text.
☐ Monthly, Equipment : Click here to enter text.
☐ Weekly, Equipment : Click here to enter text.
☐ Others (Please specify) : Click here to enter text.

6. Are periodic preventive maintenances in place for critical equipment (e.g. chillers, freezers, main processing machines and measuring equipment) to ensure the equipment are still functioning within the targeted precision?

☐ Yes ☐ No

7. What is the maintenance frequency? *Can tick more than 1 answer*

☐ Yearly, Equipment : Click here to enter text.
☐ Half Yearly, Equipment : Click here to enter text.
☐ Quarterly, Equipment : Click here to enter text.
☐ Monthly, Equipment : Click here to enter text.
☐ Weekly, Equipment : Click here to enter text.
☒ Daily, Equipment : Click here to enter text.
☐ Others (Please specify) : Click here to enter text.

8. Are all maintenance records maintained and kept?

☑ Yes ☐ No

SECTION K: PROCESS CONTROL – TRACEABILITY, QUALITY AND END PRODUCTS

1. Is there a traceability program / procedure in place?

☐ No procedure / policy in place
☐ Implemented but not documented
☒ Procedure in place and implemented perfectly
☐ *Others:* Click here to enter text.

2. Is traceability achievable back to supplier (if applicable) and up to customer level?

☒ Yes ☐ No

3. Please describe your traceability mechanism (e.g., by production date, expiry date, PO number, DO number).

Raw Material : Click here to enter text. Type text here
Packaging Material : Click here to enter text.
Finished Product : Click here to enter text.

4. Is there any rework in your production?

☐ Yes ☐ No

i) Is rework traceable? ☐ Yes ☐ No

ii) How do you ensure the safety and suitability of the rework material used?

Click here to enter text.

5. How long are the applicable records retained?

☑ 2 years ☐ 1 year ☐ Others: Click here to enter text.

6. Describe the in-process QA/ QC checks to the products.

Click here to enter text.

Click here to enter text.

7. Describe the QA/ QC checks to the finished products.

Click here to enter text.

Click here to enter text.

8. Is water used as an ingredient or for any other purpose that applies on food-contact surfaces?

☐ Yes ☑ No

If Yes, please answer the following questions:

i) Is water regularly analyzed? ☐ Yes ☐ No

ii) What is the testing frequency?

☐ Annually ☐ Monthly ☐ Others (please specify): Click here to enter text.

iii) Laboratory used: Click here to enter text.

iv) Testing standards used: Click here to enter text.

9. Is ice used as an ingredient or for any other purpose that applies on food-contact surfaces?

☐ Yes ☒ No

If Yes, please answer the following questions:

i) Is water regularly analyzed? ☐ Yes ☐ No

ii) What is the testing frequency?

☐ Annually ☐ Monthly ☐ Others (please specify): Click here to enter text.

iii) Laboratory used: Click here to enter text.

iv) Testing standards used: Click here to enter text.

SECTION L: RELEASE OF FINISHED PRODUCT

1. Is there a system in place to release product?

☑ Yes ☐ No ☐ N/A

2. Who has the authority to release finished goods to customer? QA

Click here to enter text.

3. Are final product properties inspected to ensure compliance to agreed customer spec prior release?
   ☑ Yes ☐ No

4. Are products that do not meet customer spec segregated and handled separately according to the defined procedure?
   ☑ Yes ☐ No

5. Are products stored in proper temperature and location to maintain food safety and quality criteria before delivering to customer?
   ☑ Yes ☐ No

6. Is there any shelf-life validation study conducted on the supplied final product?
   ☑ Yes ☐ No ☐ N/A

7. What is the date marking format on packaging? *Can tick more than 1 answer*
   ☐ Use by: DD/MM/YY ☐ Best before: DD/MM/YY
   ☐ Prod: DD/MM/YY ☐ Exp: DD/MM/YY
   ☐ Others (please specify): Click here to enter text. Julian Code

SECTION M: DISTRIBUTION

1. Do you have your own transportation to send goods to customers?
   ☐ Yes ☑ No

2. Are you able to seal the truck with metal seal/tamper-evident tape?
   ☐ Yes ☑ No
   If not, can the containers/cases/products be sealed with tamper-evident or similar devices?
   ☑ Yes ☐ No

3. Are vehicles integrity checks carried out during intake and dispatch?
   ☑ Yes ☐ No

4. Are these checks documented?
   ☑ Yes ☐ No

5. How frequently are vehicles cleaned? (Daily? Others)
   ☐ Daily ☐ Others (please specify): Click here to enter text.

6. Is the temperature control of vehicles monitored and recorded?
   ☐ Yes ☑ No

SECTION N: FOOD SAFETY COMPLAINT HANDLING AND RECALL

1. Do you have a documented food safety and quality customer complaint handling procedure?
   - ☐ No procedure / policy in place
   - ☐ Implemented but not documented
   - ☒ Procedure in place and implemented perfectly
   - ☐ *Others:* Click here to enter text.

2. Is complaint investigated and the is the investigation outcome documented?
   - ☑ Yes ☐ No

3. Are corrective and preventive actions effectively implemented?
   - ☐ Yes ☐ No

4. Do you have a product recall system in place?
   - ☐ No procedure / policy in place
   - ☐ Implemented but not documented
   - ☒ Procedure in place and implemented perfectly
   - ☐ *Others:* Click here to enter text.

5. Is guideline available to decide whether a product needs to be recalled or withdrawn?
   - ☒ Yes ☐ No

6. Is an up-to-date list of key contact (including out-of-hours contact detail) available?
   - ☑ Yes ☐ No

   If Yes, who are in the contact list?
   - ☑ Management Team
   - ☐ Supplier
   - ☐ Customers
   - ☐ Certification Bodies
   - ☐ Regulatory Authorities
   - ☐ Others (please specify): Click here to enter text.

7. Is the recall program tested?
   - ☑ Yes, frequency: Click here to enter text.annually ☐

SECTION O: LABORATORIES – MICROBIOLOGICAL, ANALYTICAL & PHYSICAL

1. Are raw materials routinely analyzed for microbiological/ chemical / pesticides/ antibiotics and heavy metal contaminants?
   - ☑ Yes, for all deliveries. Testing parameters: Click here to enter text.
   - ☐ Yes, for some but not all suppliers. Testing parameters: Click here to enter text.
   - ☐ Yes, only for suppliers without COA. Testing parameters: Click here to enter text.
   - ☐ No testing for all deliveries.

2. Do you send every batch of final products produced for microbe test?
   - ☐ Yes ☑ No

3. Are you able to provide COA for each batch of finish goods / product supplied?
   - ☑ Yes ☐ No

4. Is final product analytical and /or microbiological testing carried out internally or externally?

☑ External ☐ Internal

5. Is the laboratory accredited by a nationally recognized certification body e.g., ISO 17025?

a) External ☑ Yes ☐ No ☐ N/A

b) Internal ☐ Yes ☐ No ☐ N/A

6. Are your final products routinely analyzed for chemical / pesticides/ antibiotics/preservatives and heavy metal contaminants (whichever applicable)?

☐ Yes, for all deliveries

☐ Yes, for some deliveries

☐ Yes, as annual verification

☑ No
