Safety Data Sheet

1. MATERIAL AND SUPPLY COMPANY IDENTIFICATION

Product name: **CHLOR KLEEN (NOWRA C)**

Recommended use: BLEACH/SANITISER/ DESTAINER

Supplier:	**Cleveland Cleaning Supplies**
ABN:	**19 638 573 109**
Street Address:	**23 Forrester St, Kingsgrove NSW 2208**
Telephone:	**1300 760 765 or +61 2 9503 0100**
Facsimile:	**+61 2 9503 0199**

Emergency Telephone number: **1300 760 765 (Weekdays 8:00am to 5:00pm AEST)**
13 11 26 Poisons Information Centre (24 hours)
000 (24 hours)

2. HAZARDS IDENTIFICATION

Hazardous According to information referenced by Safe Work Australia
Non Dangerous Good According to the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG7)

Signal Word
Warning

Hazard Classifications
Skin Corrosion/Irritation - Category 2
Serious Eye Damage/Irritation - Category 2A
Specific Target Organ Toxicity (Single Exposure) - Category 3

Hazard Statements

H315	Causes skin irritation

General Precautionary Statements

P101	If medical advice is needed have product container or label at hand.
P102	Keep out of reach of children.
P103	Read label before use.

Prevention Precautionary Statements

P261 P271 P280	Avoid breathing dust. Use only outdoors or in a well ventilated area. Wear protective gloves/protective clothing/eye protection/face protection

Response Precautionary Statements

P302+P352	If on skin: Wash with plenty of soap and water.
P362	Take off contaminated clothing and wash before reuse.
P332+P313	If skin Irritation occurs: get medical advice/attention.
P304+P340	If Inhaled: remove victim to fresh air and keep at rest in a position comfortable for
P310	breathing.
P305+P351+P338	Immediately call a Poison Centre or doctor/physician.
P312	If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do so. Continue rinsing. Call a Poison Centre or doctor/physician if you feel unwell.

Storage Precautionary Statement

P403+P233	Store in a well ventilated place. Keep container tightly closed.

Disposal Precautionary Statement

P501 Dispose of contents/container in accordance with local or national regulations.

Poisons Schedule: N/A

3. COMPOSITION INFORMATION

NAME	CAS	PROPORTION
Chlorinated Trisodium Phosphate	56802-99-4	>60%

4. FIRST AID MEASURES

SWALLOWED	Rinse mouth with water. If swallowed, do NOT induce vomiting. Give a glass of water to drink. Never give anything by the mouth to an unconscious patient. If vomiting occurs give further water. Seek medical advice or contact Poisons Information Centre on 13 11 26
EYE	Immediately flush the contaminated eye(s) with luke warm, gently flowing water for 15 minutes, holding the eyelid(s) open. Seek immediate medical advice.
SKIN	If skin or hair contact occurs, flush off with water.
INHALED	If symptoms are experienced, remove source of contamination or move victim to fresh air.
FIRST AID FACILITIES	Ensure eyewash facilities are available in workplace

Additional Information / Aggravated medical conditions:
No known effects

5. FIRE FIGHTING MEASURES

Hazchem Code: Not applicable

Suitable extinguishing media: Special extinguishing measures not required.

Special protective precautions and equipment for fire fighters: None required

6. ACCIDENTAL RELEASE MEASURES

Restrict access to area until completion of clean up. Prevent material from entering sewers. Stop or reduce leak if safe to do so.

SMALL SPILLS
Stop leak if safe to do so. Contain spillage, then collect with noncombustible absorbent material, (e.g. sand, earth, vermiculite). Place in container for disposal according to local / national regulations (see section 13). Flush away traces with water.

LARGE SPILLS
Restrict access to area until completion of clean up. Prevent material from entering sewers. Stop or reduce leak if safe to do so.

Review federal, state and local government requirements prior to disposal.

7. HANDLING AND STORAGE

Storage Incompatibility	None known
Storage Requirements	Store in a cool, dry, well ventilated area, out of direct sunlight. Keep containers closed when not in use and securely sealed and protected against physical damage. Inspect regularly for deficiencies such as s damage or leaks. Avoid sparks, flames and ot
Handling Precautions	Avoid contact with skin and eyes. Wash hands thoroughly after handling.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

National Occupational Exposure Limits:

	TWA		STEL	
Substance	ppm	mg/m3	ppm	mg/m3
Chlorinated Trisodium Phosphate	N/Av	N/Av	N/Av	N/Av

As published by Safe Work Australia.

TWA - The time-weighted average airborne concentration over an eight-hour working day, for a five-day working week over an entire working life.

STEL (Short Term Exposure Limit) - the average airborne concentration over a 15 minute period which should not be exceeded at any time during a normal eight-hour workday.

These Exposure Standards are guides to be used in the control of occupational health hazards. All atmospheric contamination should be kept too as low a level as is workable. These exposure standards should not be used as fine dividing lines between safe and dangerous concentrations of chemicals. They are not a measure of relative toxicity.

If the directions for use on the product label are followed, exposure of individuals using the product should not exceed the above standard. The standard was created for workers who are routinely, potentially exposed during product manufacture.

Engineering Measures: A system of local and/or general exhaust is recommended to keep employee exposures as low as possible. Local exhaust ventilation id generally preferred because it can control the emissions of the contaminant at its source, preventing dispersion of it into

Personal Protection Equipment:

Respirator	Wear an effective dust mask where dusts/vapours are generated and engineering controls are inadequate.
Eye Protection	Safety dust resistant goggles.
Gloves	Wear suitable safety gloves
Clothing	Long sleeve protective coveralls and safety footwear.

Hygiene measures: Keep away from food, drink and animal feeding stuffs. When using do not eat, drink or smoke. Wash hands prior to eating, drinking or smoking. Avoid contact with clothing. Avoid eye contact and repeated or prolonged skin contact. Avoid inhalation of vapour, mist or aerosols. Ensure that eyewash stations and safety showers are close to the workstation location.

9. PHYSICAL AND CHEMICAL PROPERTIES

Form:	solid, powder
Colour:	pink
Odour:	faint chlorine odour
Solubility in water:	
Density:	0.65 - 0.75 g/ml
Relative Vapour Density (air=1):	Not determined
Vapour Pressure (20 °C):	Not determined
Flash Point (°C):	Non flammable
Boiling Point/Range (°C):	Not applicable
pH:	11.5 - 12.5 1% solution

N Av = Not available, N App = Not applicable

10. STABILITY AND REACTIVITY

Chemical stability:	Stable under normal conditions of storage and use
Conditions to avoid:	None known
Incompatible materials:	None known
Hazardous decomposition products:	Fire creates Carbon Monoxide (CO), Carbon Dioxide (CO2)
Hazardous reactions:	No dangerous reaction known under conditions of normal use.

11. TOXICOLOGICAL INFORMATION

Data not available

Symptoms or effects that may arise if the product is mishandled and overexposure occurs are:

Acute Effects:	Data not available
Inhalation:	Irritating to respiratory system.
Skin Contact:	Irritating to skin
Ingestion:	May cause discomfort if swallowed.
Eye Contact:	Irritating to eyes.
Sensitisation: Inhalation:	Data not available
Sensitisation: Skin:	Data not available
Aspiration hazard:	Data not available
Specific target organ toxicity (single exposure):	Data not available
Chronic Toxicity:	Data not available
Mutagenicity:	
Carcinogenicity:	Data not available
Reproductive toxicity (including via lactation):	Data not available
Specific target organ toxicity (repeat exposure):	Data not available

.

12. ECOLOGICAL INFORMATION

Data not available

Acute aquatic hazard: Data not available
Long-term aquatic hazard: Data not available
Ecotoxicity: Data not available
Persistence and degradability: Data not available
Bioaccumulative potential: Data not available
Mobility: Data not available

13. DISPOSAL CONSIDERATIONS

Persons conducting disposal activities should ensure that appropriate personal protection equipment is used, see "Section 8. Exposure Controls and Personal Protection" of this SDS.
Dispose in accordance with local, regional, and national regulations. .

14. TRANSPORT INFORMATION

UN Number:	None Allocated
Proper Shipping Name:	None Allocated
Dangerous Goods Class:	Not Classified
Subsidiary Risk:	None Allocated
Packing Group:	None Allocated
Special Precautions for User:	Refer to "Section 8. Exposure Controls and Personal Protection" of this SDS.
Hazchem Code:	Not applicable

15. REGULATORY INFORMATION

This material/constituent(s) is covered by the following requirements:
All components of this product are listed on or exempt from the Australian Inventory of Chemical Substances (AICS).

16. OTHER INFORMATION

Reason for issue: Format Change

This information was prepared in good faith from the best information available at the time of issue. It is based on the present level of research and to this extent we believe it is accurate. However, no guarantee of accuracy is made or implied and since conditions of use are beyond our control, all information relevant to usage is offered without warranty. The manufacturer will not be held responsible for any unauthorised use of this information or for any modified or altered versions.

If you are an employer it is your duty to tell your employees, and any others that may be affected, of any hazards described in this sheet and of any precautions that should be taken.

Safety Data Sheets are updated frequently. Please ensure you have a current copy.
