Safety Data Sheet

1. MATERIAL AND SUPPLY COMPANY IDENTIFICATION

Product name: **HOOK OIL**

Recommended use: MEAT HOOK OIL

Supplier:	**Cleveland Cleaning Supplies**
ABN:	**19 638 573 109**
Street Address:	**23 Forrester St, Kingsgrove NSW 2208**
Telephone:	**1300 760 765 or +61 2 9503 0100**
Facsimile:	**+61 2 9503 0199**

Emergency Telephone number: **1300 760 765 (Weekdays 8:00am to 5:00pm AEST)**
13 11 26 Poisons Information Centre (24 hours)
000 (24 hours)

2. HAZARDS IDENTIFICATION

Hazardous According to information referenced by Safe Work Australia
Non Dangerous Good According to the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG7)

Signal Word
Warning

Hazard Classifications
Acute Toxicity Oral - Category 4
Skin Irritation - Category 2
Eye Irritation - Category 2A

Hazard Statements

H302	Harmful if swallowed
H315	Causes skin irritation
H319	Causes serious eye irritation

General Precautionary Statements

P101	If medical advice is needed have product container or label at hand.
P102	Keep out of reach of children.
P103	Read label before use.

Prevention Precautionary Statements

P280	Wear protective gloves, clothing protection and eye and face protection
P264	Wash hands thoroughly after use
P270	Do not eat, drink or smoke when using this product

Response Precautionary Statements

P301+P330+P331	If SWALLOWED rinse mouth, DO NOT induce vomiting
P301+P312	If SWALLOWED call the Poisons Infomration Centre, phone 131126 (Australia only)
P303+P361+P353	If ON SKIN or HAIR remove immediately all contaminated clothing. Rinse skin with water.
P363	Wash contaminated clothing before re-use.
P304+P340	If INHALED remove person to fresh air and keep comfortable for breathing.
P305+P351+P338	If in EYES rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do, continue rinsing.

Storage Precautionary Statement

Disposal Precautionary Statement

P501 Dispose of contents/container in accordance with local or national regulations.

Poisons Schedule:

3. COMPOSITION INFORMATION

NAME	CAS	PROPORTION
Non Ionic Surfactant	proprietary	30-<60%
Ingredients determined to be non-hazardous		Balance

4. FIRST AID MEASURES

SWALLOWED	If product is swallowed or gets in mouth, do NOT induce vomiting; wash mouth with water and give some water to drink. If symptoms develop, or if in doubt contact a Poisons Information Centre or a doctor.
EYE	Immediately flush the contaminated eye(s) with lukewarm, gently flowing water for 5 minutes or until the product is removed, while holding the eyelid(s) open. Obtain medical advice immediately if irritation occurs. Take special care if exposed person is w
SKIN	If irritation does occur, flush with lukewarm, gently flowing water for 5 minutes or until chemical is removed.
INHALED	First aid is not generally required. If in doubt, contact a Poisons Information Centre or a doctor
FIRST AID FACILITIES	Ensure eyewash facilities are available in workplace

Additional Information / Aggravated medical conditions:
No known effects

5. FIRE FIGHTING MEASURES

Hazchem Code:

Suitable extinguishing media: Not combustible. Use extinguishing media suited to burning materials.

Special protective precautions and equipment for fire fighters: If a significant quantity of this product is involved in a fire, call the fire brigade.

6. ACCIDENTAL RELEASE MEASURES

SMALL SPILLS
Minor spills do not normally need any special clean-up measures.

LARGE SPILLS
In the event of a major spill, prevent spillage from entering drains or water courses.

Review federal, state and local government requirements prior to disposal.

7. HANDLING AND STORAGE

Storage Incompatibility	Incompatible with strong oxidising agents.
Storage Requirements	No special requirements.
Handling Precautions	As a minimum, wear overalls, goggles and gloves. Suitable materials for protective clothing include rubber. Eye/face protective equipment should comprise as a minimum, protective glasses and, preferably, goggles. If there is a significant chance that vapo

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

National Occupational Exposure Limits:

	TWA		STEL	
Substance	ppm	mg/m3	ppm	mg/m3
Non Ionic Surfactant				

As published by Safe Work Australia.

TWA - The time-weighted average airborne concentration over an eight-hour working day, for a five-day working week over an entire working life.

STEL (Short Term Exposure Limit) - the average airborne concentration over a 15 minute period which should not be exceeded at any time during a normal eight-hour workday.

These Exposure Standards are guides to be used in the control of occupational health hazards. All atmospheric contamination should be kept too as low a level as is workable. These exposure standards should not be used as fine dividing lines between safe and dangerous concentrations of chemicals. They are not a measure of relative toxicity.

If the directions for use on the product label are followed, exposure of individuals using the product should not exceed the above standard. The standard was created for workers who are routinely, potentially exposed during product manufacture.

Engineering Measures: Not normally required.

Personal Protection Equipment:

Respirator	Usually, no respirator is necessary when using this product. However, if you have any doubts consult the Australian Standard mentioned above.
Eye Protection	Eye protection such as protective glasses or goggles is recommended when the undiluted product is being used.
Gloves	We suggest that you routinely avoid contact with all chemical products and that you wear suitable gloves (preferably elbow-length) when skin contact is likely.
Clothing	No special requirements

Hygiene measures: Keep away from food, drink and animal feeding stuffs. When using do not eat, drink or smoke. Wash hands prior to eating, drinking or smoking. Avoid contact with clothing. Avoid eye contact and repeated or prolonged skin contact. Avoid inhalation of vapour, mist or aerosols. Ensure that eyewash stations and safety showers are close to the workstation location.

9. PHYSICAL AND CHEMICAL PROPERTIES

Form:	Clear to hazy liquid
Colour:	brown
Odour:	mild oily odour

Solubility in water:	completely miscible in water
Density:	0.92 at 15 degC
Relative Vapour Density (air=1):	No data available
Vapour Pressure (20 °C):	No data available
Flash Point (°C):	Not applicable
Boiling Point/Range (°C):	>230degC
pH:	Not applicable

N Av = Not available, N App = Not applicable

10. STABILITY AND REACTIVITY

Chemical stability:	Stable under normal conditions of storage and use
Conditions to avoid:	Do not mix with other chemicals
Incompatible materials:	Strong oxidising agents
Hazardous decomposition products:	Only small quantities of decomposition products are expected from this product at temperatures normally achieved in a fire. This will only occur after heating to dryness. Combustion forms carbon HOOK OIL Page 4 of 5 dioxide, and if incomplete, carbon mon
Hazardous reactions:	This product will not undergo polymerisation reactions.

11. TOXICOLOGICAL INFORMATION

Data not available

Symptoms or effects that may arise if the product is mishandled and overexposure occurs are:

Acute Effects:	May be harmful if swallowed.
Inhalation:	No known significant effects or hazards
Skin Contact:	Irritant
Ingestion:	Significant oral exposure is considered to be unlikely.
Eye Contact:	Irritating to eyes.
Sensitisation: Inhalation:	No known significant effects or hazards
Sensitisation: Skin:	Irritant
Aspiration hazard:	No known significant effects or hazards
Specific target organ toxicity (single exposure):	No known significant effects or hazards
Chronic Toxicity:	No known significant effects or hazards
Mutagenicity:	
Carcinogenicity:	No known significant effects or hazards
Reproductive toxicity (including via lactation):	No known significant effects or hazards
Specific target organ toxicity (repeat exposure):	No known significant effects or hazards

.

12. ECOLOGICAL INFORMATION

Data not available

Acute aquatic hazard: Data not available

Long-term aquatic hazard: Data not available
Ecotoxicity: Data not available
Persistence and degradability: Data not available
Bioaccumulative potential: Data not available
Mobility: Data not available

13. DISPOSAL CONSIDERATIONS

Persons conducting disposal activities should ensure that appropriate personal protection equipment is used, see "Section 8. Exposure Controls and Personal Protection" of this SDS.
Dispose in accordance with local, regional, and national regulations. .

14. TRANSPORT INFORMATION

UN Number:	
Proper Shipping Name:	
Dangerous Goods Class:	
Subsidiary Risk:	
Packing Group:	
Special Precautions for User:	Refer to "Section 8. Exposure Controls and Personal Protection" of this SDS.
Hazchem Code:	0

15. REGULATORY INFORMATION

This material/constituent(s) is covered by the following requirements:
All components of this product are listed on or exempt from the Australian Inventory of Chemical Substances (AICS).

16. OTHER INFORMATION

Reason for issue: Format Change

This information was prepared in good faith from the best information available at the time of issue. It is based on the present level of research and to this extent we believe it is accurate. However, no guarantee of accuracy is made or implied and since conditions of use are beyond our control, all information relevant to usage is offered without warranty. The manufacturer will not be held responsible for any unauthorised use of this information or for any modified or altered versions.

If you are an employer it is your duty to tell your employees, and any others that may be affected, of any hazards described in this sheet and of any precautions that should be taken.

Safety Data Sheets are updated frequently. Please ensure you have a current copy.
