Safety Data Sheet

1. MATERIAL AND SUPPLY COMPANY IDENTIFICATION

Product name: **PROCID**

Recommended use: MEAT HOOK ACID

Supplier:	**Cleveland Cleaning Supplies**
ABN:	**19 638 573 109**
Street Address:	**23 Forrester St, Kingsgrove NSW 2208**
Telephone:	**1300 760 765 or +61 2 9503 0100**
Facsimile:	**+61 2 9503 0199**

Emergency Telephone number: **1300 760 765 (Weekdays 8:00am to 5:00pm AEST)**
13 11 26 Poisons Information Centre (24 hours)
000 (24 hours)

2. HAZARDS IDENTIFICATION

Hazardous According to information referenced by Safe Work Australia
Dangerous Good According to the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG7)

Signal Word
Danger

Hazard Classifications
Acute Oral Toxicity – Category 3
Skin Corrosion – Category 2
Eye Damage - Category 2a

Hazard Statements

H290	Maybe corrosive to metals
H302	Harmful if swallowed
H315	Causes skin irritation
H318	Causes serious eye damage

General Precautionary Statements

P101	If medical advice is needed have container product and label on hand
P102	Keep out of reach of children
P103	Read label before use.

Prevention Precautionary Statements

P280	Wear protective gloves, clothing protection and eye and face protection
P260	Do not breathe dust/fumes/gas/mist/vapours/spray
P264	Wash hands thoroughly after use
P270	Do not eat, drink or smoke when using this product

Response Precautionary Statements

P301+P330+P331	If SWALLOWED Rinse mouth, DO NOT induce vomiting.
P301+P312	If SWALLOWED call the Poisons Information Centre phone 13 11 26 (Australia only)
P303+P361+P353 P363	IF ON SKIN OR HAIR Take off immediately all contaminated clothing. Rinse skin with water or shower.
P304+P340	Wash contaminated clothing before re use.
P305+P351+P338	If INHALED remove person to fresh air and keep comfortable for breathing
P312	IF IN EYES Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do, continue rinsing.

Immediately call a poison Centre or doctor/physician.

Storage Precautionary Statement

P403 + P233 Store in a well ventilated place. Keep container tightly closed.

Disposal Precautionary Statement

P501 Dispose of contents/container in accordance with local or national regulations.

Poisons Schedule: Schedule 5

3. COMPOSITION INFORMATION

NAME	CAS	PROPORTION
Citric Acid	77-92-9	<20%
Phosphoric Acid	7664-38-2	<10%
Ingredients determined to be non-hazardous		Balance

4. FIRST AID MEASURES

SWALLOWED	Rinse mouth with water. If swallowed, do NOT induce vomiting. Give a glass of water to drink. Never give anything by the mouth to an unconscious patient. If vomiting occurs give further water. Seek medical advice or contact Poisons Information Centre on 13 11 26
EYE	Immediately flush the contaminated eye(s) with luke warm, gently flowing water for 15 minutes, holding the eyelid(s) open. Seek immediate medical advice.
SKIN	If skin or hair contact occurs, flush off with water.
INHALED	If symptoms are experienced, remove source of contamination or move victim to fresh air.
FIRST AID FACILITIES	Ensure eyewash facilities are available in workplace

Additional Information / Aggravated medical conditions:
No known effects

5. FIRE FIGHTING MEASURES

Hazchem Code: 2R

Suitable extinguishing media: Use water spray and fog.
If safe to do so, move undamaged containers from fire area – Do not approach hot containers. Cool containers with water before handling
If impossible to extinguish fire, protect surroundings, withdraw from area and allow fire to burn.
May liberate toxic or flammable gases when heated or by chemical reaction.

Special protective precautions and equipment for fire fighters: If large amounts are involved wear SCBA and chemical splash suit.

6. ACCIDENTAL RELEASE MEASURES

Restrict access to area until completion of clean up. Prevent material from entering sewers. Stop or reduce leak if safe to do so.

SMALL SPILLS
Stop leak if safe to do so. Contain spillage, then collect with noncombustible absorbent material, (e.g. sand, earth, vermiculite). Place in container for disposal according to local / national regulations (see section 13). Flush away traces with water.

LARGE SPILLS
Restrict access to area until completion of clean up. Prevent material from entering sewers. Stop or reduce leak if safe to do so.

Review federal, state and local government requirements prior to disposal.

7. HANDLING AND STORAGE

Storage Incompatibility	Incompatible with alkali, chlorine bleach
Storage Requirements	Store in cool place in sealed containers
Handling Precautions	Avoid contact with skin and eyes. Wash hands thoroughly after handling.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

National Occupational Exposure Limits:

	TWA		STEL	
Substance	ppm	mg/m3	ppm	mg/m3
Citric Acid		1.mg/m3	N/Av	3mg/m3
Phosphoric Acid		10 mg/m3	N/Av	N/Av

As published by Safe Work Australia.

TWA - The time-weighted average airborne concentration over an eight-hour working day, for a five-day working week over an entire working life.

STEL (Short Term Exposure Limit) - the average airborne concentration over a 15 minute period which should not be exceeded at any time during a normal eight-hour workday.

These Exposure Standards are guides to be used in the control of occupational health hazards. All atmospheric contamination should be kept too as low a level as is workable. These exposure standards should not be used as fine dividing lines between safe and dangerous concentrations of chemicals. They are not a measure of relative toxicity.

If the directions for use on the product label are followed, exposure of individuals using the product should not exceed the above standard. The standard was created for workers who are routinely, potentially exposed during product manufacture.

Engineering Measures: Use adequate ventilation

Personal Protection Equipment:

Respirator	Wear respirator when pouring and handling
Eye Protection	Always wear safety glasses or chemical goggles. Failure to do so may results in eye damage if an accident occurs.
Gloves	Use PVC or suitable chemical resistant gloves.
Clothing	No special requirements

Hygiene measures: Keep away from food, drink and animal feeding stuffs. When using do not eat, drink or smoke. Wash hands prior to eating, drinking or smoking. Avoid contact with clothing. Avoid eye contact and repeated or prolonged skin contact. Avoid inhalation of vapour, mist or aerosols. Ensure that eyewash stations and safety showers are close to the workstation location.

9. PHYSICAL AND CHEMICAL PROPERTIES

Form:	Mobile liquid
Colour:	Clear
Odour:	Mild odour

Solubility in water:	Miscible
Density:	1.083
Relative Vapour Density (air=1):	Not determined
Vapour Pressure (20 °C):	Not determined
Flash Point (°C):	Non flammable
Boiling Point/Range (°C):	95°C to 100°C
pH:	2.3

N Av = Not available, N App = Not applicable

10. STABILITY AND REACTIVITY

Chemical stability:	Stable under normal conditions of storage and use
Conditions to avoid:	Do not mix with other chemicals containing Hypo chlorites (Bleach), will liberate toxic Chlorine gas.
Incompatible materials:	Chlorine; Alkali
Hazardous decomposition products:	
Hazardous reactions:	

11. TOXICOLOGICAL INFORMATION

Data not available

Symptoms or effects that may arise if the product is mishandled and overexposure occurs are:

Acute Effects:	Data not available
Inhalation:	Data not available
Skin Contact:	Data not available
Ingestion:	Data not available
Eye Contact:	Data not available
Sensitisation: Inhalation:	Data not available
Sensitisation: Skin:	Data not available
Aspiration hazard:	Data not available
Specific target organ toxicity (single exposure):	Data not available
Chronic Toxicity:	Data not available
Mutagenicity:	
Carcinogenicity:	Data not available
Reproductive toxicity (including via lactation):	Data not available
Specific target organ toxicity (repeat exposure):	Data not available

.

12. ECOLOGICAL INFORMATION

Data not available

Acute aquatic hazard: Data not available
Long-term aquatic hazard: Data not available
Ecotoxicity: Data not available
Persistence and degradability: Data not available
Bioaccumulative potential: Data not available

Mobility: Data not available

13. DISPOSAL CONSIDERATIONS

Persons conducting disposal activities should ensure that appropriate personal protection equipment is used, see "Section 8. Exposure Controls and Personal Protection" of this SDS.
Dispose in accordance with local, regional, and national regulations. .

14. TRANSPORT INFORMATION

UN Number:	1805
Proper Shipping Name:	Phosphoric acid
Dangerous Goods Class:	8
Subsidiary Risk:	None Allocated
Packing Group:	111
Special Precautions for User:	Refer to "Section 8. Exposure Controls and Personal Protection" of this SDS.
Hazchem Code:	2R

15. REGULATORY INFORMATION

This material/constituent(s) is covered by the following requirements:
All components of this product are listed on or exempt from the Australian Inventory of Chemical Substances (AICS).

16. OTHER INFORMATION

Reason for issue: Format Change

This information was prepared in good faith from the best information available at the time of issue. It is based on the present level of research and to this extent we believe it is accurate. However, no guarantee of accuracy is made or implied and since conditions of use are beyond our control, all information relevant to usage is offered without warranty. The manufacturer will not be held responsible for any unauthorised use of this information or for any modified or altered versions.

If you are an employer it is your duty to tell your employees, and any others that may be affected, of any hazards described in this sheet and of any precautions that should be taken.

Safety Data Sheets are updated frequently. Please ensure you have a current copy.
